

Dear Sirs,

I am writing with great concern that the rules limiting media consolidation will be relaxed rather than strengthened. As an artist and teacher, I think this current generation is not as informed as they should be regarding issues that will affectg their future. The future should be a place where all opinions are heard and where competition promotes diversity. I urge you to consider these facts and vote to strengthen local communitites by upholding the purpose of your organization.

Thank you,

Amy Stolzenbach
